Washington where they were received by President Wilson and his Cabinet. Then they traveled to Camp Greenleaf, the medical training camp where, Colonel Martin said, they presented the technical papers which were to have been read at the conference. Next the delegates went to St. Paul, Minn., where they visited the Mayo Clinic after which they went to Chicago, Philadelphia, and other important cities.

Colonel Martin introduced Colonel William J. Mayo, president of the American College of Surgeons, and then the candidates for honorary fellowships filed by the speaker's table, the little procession being led by General Ireland. He was escorted by Major General William C. Gorgas. As each member reached Colonel Mayo he halted long enough for Dr. Mayo to cite the achievements of the candidate.

General Ireland in his speech said that the fellowship was an unexpected honor and that he would treasure it as a trust to be held for the thousands of medical men of the American Army. Turning to a discussion of American Army medical experience abroad, General Ireland said wartime treatment of the sick and wounded had proved different in this war, and he paid generous thanks to the medical officers of the Allies for their aid to the Americans. Not only were the Americans taken to front-line formations and instructed, but important medical officers of the allied armies came monthly to the Research Council in Paris, thereby enabling that body to "do ineffable good and save countless lives." "American medical officers in France," General Ireland added, "have labored in France under many difficulties. Much of France's resources had been exhausted when we got there, and it was a splendid spirit with which our American doctors took up their great task. I think I may say that the achievement of American medical officers in France will add a bright page to American medical history. We still are short of personnel and material due to a lack of tonnage, over which we have no control, but I am confident these difficul-

ties will be overcome in time to enable us to accomplish all that lies before us."
